Skills & Qualities

- Teamworking
- Punctual
- Self-motivated
- Perfectionist
- Responsible

- C++
- JavaScript
- PHP(Laravel)
- C#/JAVA/PYTHON
- Node/React/Angular

Extra

Driving license (B).

Living in Vilnius, žirmūnai.

C++ is my main programming language. With it I creaated countless graphical programs, from cool visuals to my own UI library. I develop games, created my own 3d/game engine. Right now I'am working on compiler / OS on raspberry PI as my graduate work.

I love graphical design, so JavaScript is no enemy of mine. I developed minigames, responsive designs, and some simple projects.
